# INTERNATIONAL SEARCH REPORT

(PCT Article 18 and Rules 43 and 44)

Section   Action	Applicant's or agent's file reference	FOR FURTHER see Notification of	of Transmittal of International Search Report
Applicant  DISCOVERY COMMUNICATIONS, INC.  This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Ardice 16. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of		ACTION (Form PCT/ISA/2	20) as well as, where applicable, item 5 below.
Applicant  DISCOVERY COMMUNICATIONS, INC.  This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	International application No.	International filing date (day/month/year)	(Earliest) Priority Date (day/month/year)
This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 16. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	PCT/US 00/01708	27/01/2000	27/01/1999
This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	Applicant		
This International Search Report has been prepared by this International Searching Authority and is transmitted to the applicant according to Article 18. A copy is being transmitted to the International Bureau.  This International Search Report consists of a total of	DICCOVERY COMMUNICATIONS		
This International Search Report consists of a total of	DISCOVERY COMMUNICATIONS,	INC.	
It is also accompanied by a copy of each prior and document cited in this report.  1. Basis of the report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filled, unless otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence itsing; contained in the international application in written form.	This International Search Report has been according to Article 18. A copy is being tra	prepared by this International Searching Auth Insmitted to the International Bureau.	ority and is transmitted to the applicant
1. Basis of the report  a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.  the international search was carried out on the basis of a translation of the international application /urnished to mis Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence disclosed in the international application, the international application in computer readable form.  furnished subsequently to this Authority in computer readable form.  furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (see Box II).  With regard to the title,  the text is approved as submitted by the applicant.  the text has been established by this Authority to read as follows:  5. With regard to the abstract,  the text is approved as submitted by the applicant.  the text is approved as submitted by the applicant.  the text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the cate of mailing of this international search report, submit comments to this Authority, within one month from the cate of mailing of this international search report, submit comments to this Authority.  Plone of the figures.  Plone of the figures.			
a. With regard to the language, the international search was carried out on the basis of the international application in the language in which it was filed, unless otherwise indicated under this item.    the international search was carried out on the basis of a translation of the international application furnished to this Authority (Rule 23.1(b)).   b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:   onlianced in the international application in written form.   filed together with the international application in computer readable form.   furnished subsequently to this Authority in written form.   furnished subsequently to this Authority in computer readable form.   the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.   the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.   Unity of invention is lacking (see Box II).   Unity of invention is lacking (see Box II).   With regard to the title,   X	X It is also accompanied by	a copy of each prior art document cited in this	report.
the international search was carried out on the basis of a translation of the international application furnished to mis Authority (Rule 23.1(b)).  b. With regard to any nucleotide and/or amino acid sequence disclosed in the international application, the international search was carried out on the basis of the sequence listing:  contained in the international application in written form.  filed together with the international application in computer readable form.  furnished subsequently to this Authority in written form.  turnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (see Box II).  4. With regard to the title,  The text is approved as submitted by the applicant.  the text has been established according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority, within one month from the date of mailing of this international search report, submit comments to this Authority.  The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  None of the figures.  because the applicant failed to suggest a figure.  because the applicant failed to suggest a figure.	Basis of the report	**************************************	
b. With regard to the title,  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (see Box II).  With regard to the title,  The text has been established by this Authority to read as follows:  Swith regard to the abstract,  The tigure of the abstract,  The tigure of the drawings to be published with the abstract is Figure No.  The tigure of the drawings to be published with the abstract is Figure No.  The tigure of the drawings to be published with the abstract is Figure No.  The tigure of the drawings to be published with the abstract is Figure No.  But with regard to the figures.  The tigure of the drawings to be published with the abstract is Figure No.  Suggested by the applicant.  The tigure of the drawings to be published with the abstract is Figure.  Decause the applicant failed to suggest a figure.  Decause the applicant failed to suggest a figure.  Decause the applicant failed to suggest a figure.	<ul> <li>With regard to the language, the is language in which it was filed, unle</li> </ul>	nternational search was carried out on the basi ass otherwise indicated under this item.	is of the international application in the
contained in the international application in written form.    Glied together with the international application in computer readable form.	Authority (Hule 23.1(b)).		
contained in the international application in written form.    Glied together with the international application in computer readable form.   Surnished subsequently to this Authority in written form.   Item is statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.   the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.   The statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.   With regard to the title,   Year   Year	<ul> <li>With regard to any nucleotide and was carried out on the basis of the</li> </ul>	I/or amino acid sequence disclosed in the int sequence listing:	ernational application, the international search
furnished subsequently to this Authority in written form.    turnished subsequently to this Authority in computer readble form.   the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filled has been furnished.   the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.   Certain claims were found unsearchable (See Box I).   Unity of invention is lacking (see Box II).   With regard to the title,   X	J7		
furnished subsequently to this Authority in computer readable form.  the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (see Box II).  Unity of invention is lacking (see Box II).  With regard to the title,  the text is approved as submitted by the applicant, the text has been established by this Authority to read as follows:  The text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  None of the figures.  because this figure better characterizes the invention.	filed together with the inter	national application in computer readable form	i.
the statement that the subsequently furnished written sequence listing does not go beyond the disclosure in the international application as filed has been furnished.  the statement that the information recorded in computer readable form is identical to the written sequence listing has been furnished.  Certain claims were found unsearchable (See Box I).  Unity of invention is lacking (see Box II).  With regard to the title,  the text is approved as submitted by the applicant, the text has been established by this Authority to read as follows:  The text has been established, according to Rule 38.2(b), by this Authority as it appears in Box III. The applicant may, within one month from the date of mailing of this international search report, submit comments to this Authority.  The figure of the drawings to be published with the abstract is Figure No.  as suggested by the applicant.  Mone of the figures, because the applicant failed to suggest a figure.  because the applicant failed to suggest a figure.
